> Cautionary Statements

This presentation contains forward-looking statements within the meaning of securities legislation in the United States and Canada, including statements involving strategic priorities and company strategies, expectations regarding environmental, social and governance (“ESG”) initiatives, anticipated production, costs and expenses, exploration and development efforts, health and safety protocols, COVID-19 planning and response measures, operations, expectations and initiatives at the Palmarejo, Rochester, Kensington, Wharf and Silvertip mines, throughput, mining rates, grades, depletion, tons placed and crushed, mine life, growth, capital allocation, and hedging strategies. Such forward-looking statements involve known and unknown risks, uncertainties, and other factors which may cause Coeur's actual results, performance, or achievements to be materially different from any future results, performance, or achievements expressed or implied by the forward-looking statements. Such factors include, among others, the risk that the strategies, initiatives and expectations described in this presentation are not achieved on a timely basis or at all, the risks and hazards inherent in the mining business (including risks inherent in developing large-scale mining projects, environmental hazards, industrial accidents, weather, or geologically related conditions), changes in the market prices of gold, silver, zinc, and lead, and a sustained lower price or higher treatment and refining charge environment, the uncertainties inherent in Coeur's production, exploratory and developmental activities, including risks relating to permitting and regulatory delays (including the impact of government shutdowns), ground conditions, grade variability, any future labor disputes, or work stoppages, the uncertainties inherent in the estimation of mineral reserves and resources, changes that could result from Coeur's future acquisition of new mining properties or businesses, the loss or insolvency of any third-party smelter to which Coeur markets its production, the potential effects of the COVID-19 pandemic, including impacts to the availability of our workforce, continued access to financing sources, government orders that may require temporary suspension of operations at one or more of our sites and effects on our suppliers or the refiners and smelters to whom the Company markets its production and the communities where the Company operates, the effects of environmental and other governmental regulations and government shut-downs, the risks inherent in the ownership or operation of or investment in mining properties or businesses in foreign countries, Coeur's ability to raise additional financing necessary to conduct its business, make payments or refinance its debt as well as other uncertainties and risk factors set out in filings made from time to time with the United States Securities and Exchange Commission, and the Canadian securities regulators, including, without limitation, Coeur's most recent report Form 10-K. Actual results, developments, and timetables could vary significantly from the estimates presented. Readers are cautioned not to put undue reliance on forward looking statements. Coeur disclaims any intent or obligation to update publicly such forward-looking statements, whether as a result of new information, future events, or otherwise. Additionally, Coeur undertakes no obligation to comment on analyses, expectations, or statements made by third parties in respect of Coeur, its financial or operating results or its securities.

Christopher Pascoe, Coeur's Director, Technical Services and a qualified person under Canadian National Instrument 43-101, reviewed and approved the scientific and technical information concerning Coeur's mineral projects in this presentation. Mineral resources are in addition to mineral reserves and do not have demonstrated economic viability. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of mineral reserves, and there is no certainty that the inferred mineral resources will be realized. For a description of the key assumptions, parameters and methods used to estimate mineral reserves and resources, as well as data verification procedures and a general discussion of the extent to which the estimates may be affected by any known environmental, permitting, legal, title, taxation, socio-political, marketing or other relevant factors, Canadian investors should see the Technical Reports for each of Coeur's properties as filed on SEDAR at www.sedar.com.

Cautionary Note to U.S. Investors - The United States Securities and Exchange Commission permits U.S. mining companies, in their filings with the SEC, to disclose only those mineral deposits that a company can economically and legally extract or produce. We may use certain terms in public disclosures, such as "measured," "indicated," "inferred" and "resources," that are recognized by Canadian regulations, but that SEC guidelines generally prohibit U.S. registered companies from including in their filings with the SEC. U.S. investors are urged to consider closely the disclosure in our Form 10-K which may be secured from us, or from the SEC's website at <http://www.sec.gov>.

Non-U.S. GAAP Measures - We supplement the reporting of our financial information determined under United States generally accepted accounting principles (U.S. GAAP) with certain non-U.S. GAAP financial measures, including adjusted net income (loss), operating cash flow excluding changes in working capital, adjusted EBITDA, adjusted EBITDA margin, total leverage, net leverage, free cash flow and adjusted costs applicable to sales per ounce/pound. We believe that these adjusted measures provide meaningful information to assist management, investors and analysts in understanding our financial results and assessing our prospects for future performance. We believe these adjusted financial measures are important indicators of our recurring operations because they exclude items that may not be indicative of, or are unrelated to our core operating results, and provide a better baseline for analyzing trends in our underlying businesses. We believe adjusted net income (loss), adjusted EBITDA, adjusted EBITDA margin, total leverage, net leverage, free cash flow and adjusted costs applicable to sales per ounce/pound are important measures in assessing the Company's overall financial performance. This presentation does not represent an offer of any securities for sale.

- ✔ Results driven by strong 2H performance and higher metals prices
- ✔ Generated ~\$49M of free cash flow¹ in 2020 (~\$86M in 2H)
- ✔ Achieved full-year consolidated and site-level production guidance
- ✔ Second consecutive year of strong cost performance at Palmarejo, Kensington and Wharf
- ✔ Published updated technical report for Rochester, highlighting the impacts of the larger-scale expansion project now underway
- ✔ Achieved largest reserve base in Company history driven by record 2020 exploration program
- ✔ Further enhanced balance sheet and improved financial flexibility

(1) Free cash flow is defined as cash flow from operating activities less capital expenditures. See reconciliation tables in the appendix to this presentation.

> Expanded Reserve and Resource Base

Coeur's 2020 exploration program was highly successful in replacing production and growing resources via new discoveries. Continued near mine resource expansion and strong results reflect the potential for further mine life extensions and organic growth opportunities with continued drilling

Note: See slides in appendix for additional information related to mineral reserves and resources. Canadian investors should refer to the applicable technical reports on file at www.sedar.com.

> Looking Ahead: Key Priorities for 2021

- ✔ Maintain focus on rigorous health and safety protocols
- ✔ Steadily increase production and continue executing major construction on POA 11 expansion at Rochester
- ✔ Remain committed to a higher-level of exploration investment to drive reserve and resource growth
- ✔ Continue evaluating potential expansion and restart of Silvertip; release results of updated technical report (later in the year)
- ✔ Allocate capital according to framework, prioritizing investments in highest-return growth opportunities
- ✔ Deliver consistent operating and financial results across portfolio

> Community Relations & Indigenous Rights

The Company has the highest regard for the dignity, well-being and rights of the communities in which it operates, as well as all of its indigenous partners. Coeur is proud of the relationships it has built, the agreements it has in place and looks forward to working together with its community partners for years to come

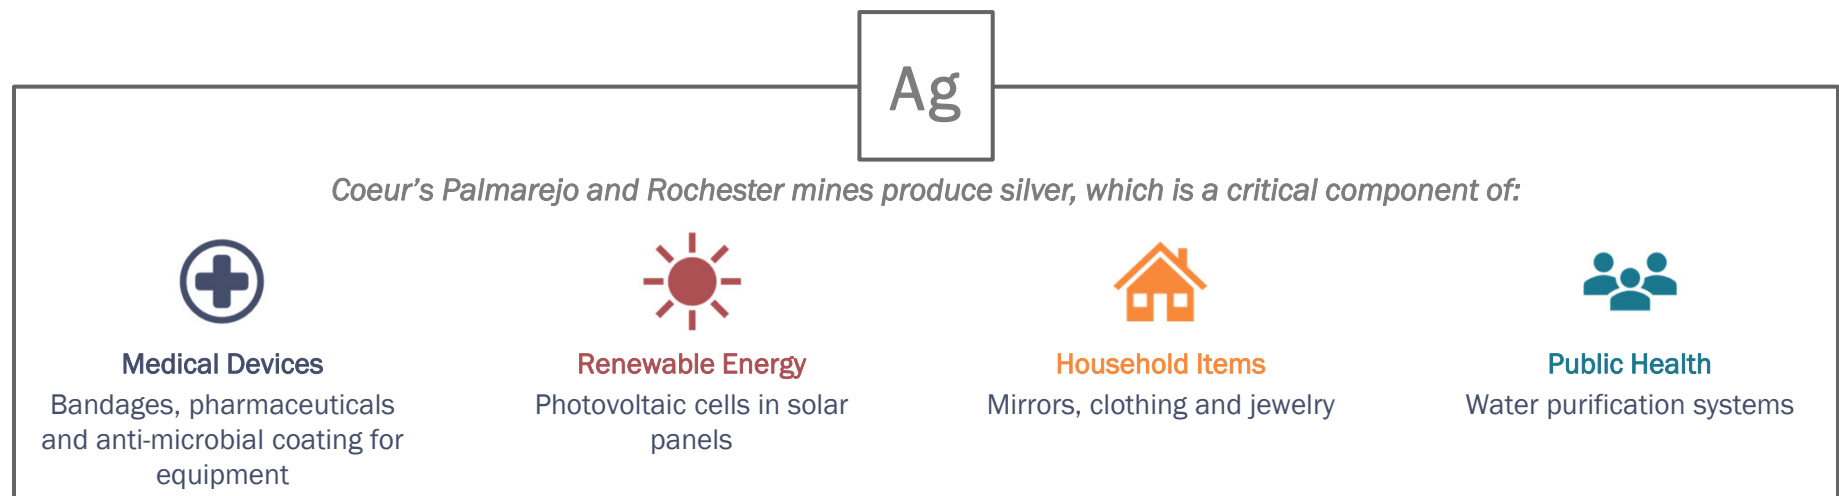

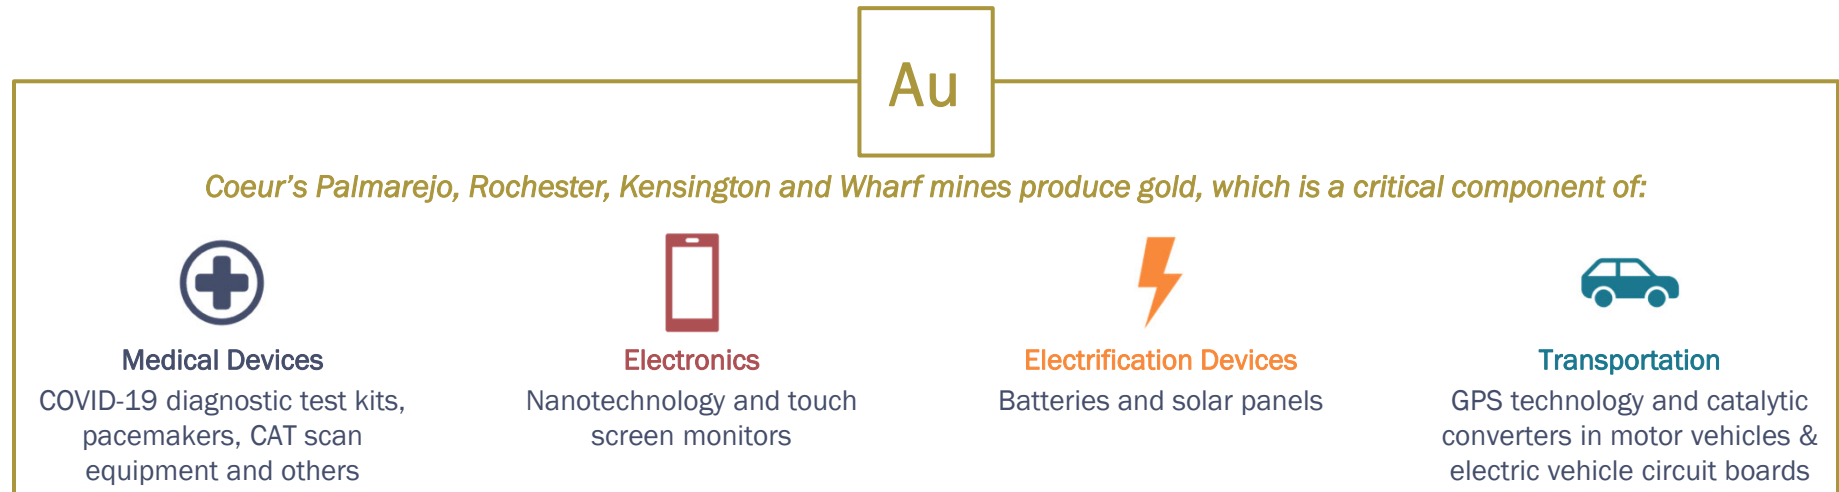

> Benefits of Community Agreements

Coeur's community agreements lay the foundation for strong partnerships and shared benefits between the Company and its community partners

> Precious Metals Are Coeur to Everyday Life

Coeur is an important part of the supply chains for gold and silver. Due to their unique properties, gold and silver have countless innovative uses that shape the way we live today and enable a more sustainable, healthier tomorrow

> Committed to Diversity and Inclusion

“The tragic death of George Floyd and other horrific events serve as stark reminders that, as a society, much work remains to be done to address racism and the conscious and unconscious biases that enable its existence. At Coeur, we are committed to fostering diversity and inclusion at our company and in our communities.”

– Mitchell J. Krebs, President & CEO

CEO **ACT!ON** FOR DIVERSITY & INCLUSION

- ✓ First and only precious metals mining CEO to sign the CEO ACTION for Diversity & Inclusion pledge
- ✓ Hosted a Day of Understanding in early 2020
 - Created platform for open dialogue and meaningful conversations on diversity and inclusion
- ✓ Planning second Day of Understanding for April 2021

- ✓ Designed to highlight and engage members of the military
- ✓ Allows service members to use the special skills developed during their time of service to help make a difference at Coeur's operations
- ✓ Provided 72 career opportunities to current and former U.S. Military personnel in 2020

- ✓ Coeur sponsored 'reading playoffs' event for four consecutive years
- ✓ Expanding partnership to include: COVID-19 response and staff diversity training
- ✓ Hosting "Learn about Geology with Coeur Mining" sessions
 - Students virtually learn from Coeur's geologists about mining as a career and explore their own geology kits

- ✓ Partnering with National Society of Black Engineers
- ✓ Sponsoring Summer Engineering Experience for Kids program
 - Providing learning opportunities and access to STEM education
- ✓ Partnering with NSBE chapters at universities throughout the country for virtual career fairs, summer internships and apprenticeships

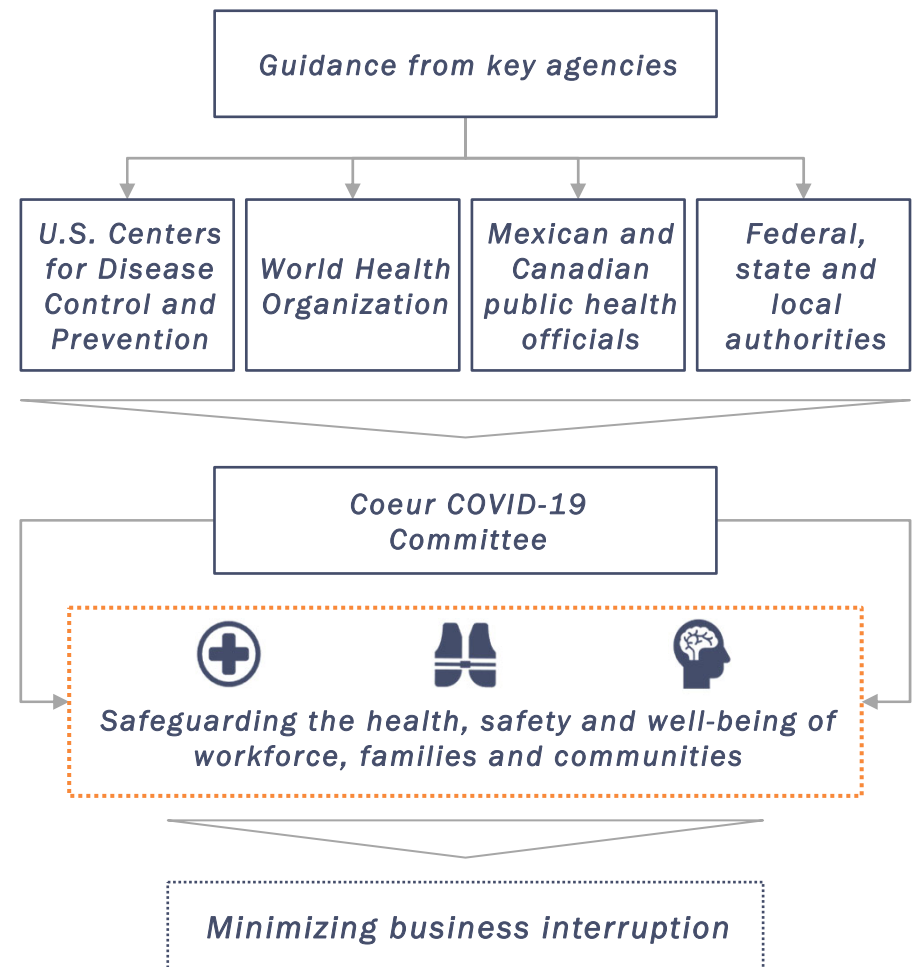

> COVID-19 Response and Decision-Making Approach

Coeur's principal objective to help combat COVID-19 is to safeguard the health, safety and well-being of its workforce, their families and the communities where the Company operates

PROTECT

Our People, Places, Planet

 <p><i>People</i></p>	<ul style="list-style-type: none"> ✓ Social distancing and enhanced cleaning ✓ Multilayered testing strategy ✓ Traditional contact tracing complemented by wearable technology ✓ Remote work for office employees ✓ Only essential business travel ✓ Pre-work and on-site health screenings ✓ Regular CEO and executive communications; talking points for local leaders ✓ Sick leave policies cover bonus payments to camp employees affected by extended schedules and quarantine
 <p><i>Places</i></p>	<ul style="list-style-type: none"> ✓ Partner with communities in communication and response efforts ✓ Greatly reduced travel, limiting community risk of exposure ✓ Implementing company-provided testing and contact tracing organization-wide ✓ Donations, including PPE and supplies for vulnerable community members ✓ Palmarejo clinic open to the public

> Industry-Leading Safety Performance

Coeur has held the National Mining Association CORESafety certification since 2017

Coeur's injury frequency rate remains significantly below industry averages

Governance Practices

- ✓ **Board Refreshment and Succession Planning**
 - Two new independent directors added to the Board in February 2018 and four directors – 50% of independent directors – added in last eight years
 - Also added a new independent director in early 2019, who recently had to resign in connection with a new professional position that did not allow outside board service
 - Active Board succession planning and refreshment
- ✓ **Robust Board and Committee Evaluations**
 - Annual evaluations promote Board and Board committee effectiveness
 - Chairman’s one-on-one meetings with each director promote candor, effectiveness and accountability
- ✓ **No Related Party Transactions**
 - No related person transactions with directors or executive officers
- ✓ **Board-Level Risk Oversight**
 - The Board and Board committees take an active role in the Company’s risk oversight and risk management processes
- ✓ **Active Stockholder Engagement**
 - During 2020, Coeur continued its proactive and robust stockholder outreach efforts on governance, executive compensation and other matters, contacting all institutional stockholders of 0.15% or more
- ✓ **Clawback Policy**
 - Added officer misconduct to the scope of clawback policy in addition to financial restatement-driven events

Stockholder Rights

- ✓ **Annual Election of Directors**
 - All directors are elected annually for one-year terms
- ✓ **Majority Voting for Director Elections**
 - Majority voting in uncontested director elections with a resignation policy
- ✓ **Stockholder Right to Call Special Meetings**
 - Stockholders owning 20% or more of Coeur’s common stock have the right to call a special meeting of the Stockholders
- ✓ **No Poison Pill**
 - Coeur does not have a poison pill or similar anti-takeover defenses in place
- ✓ **Proxy Access**
 - Proactively adopted proxy access in March 2019, which allows stockholders who have satisfied specified requirements under the Company’s Bylaws to include director nominees in the Company’s proxy statement and form of proxy (greater of two nominees or 20% Board seats)

> Diverse Board Led by Independent Chair

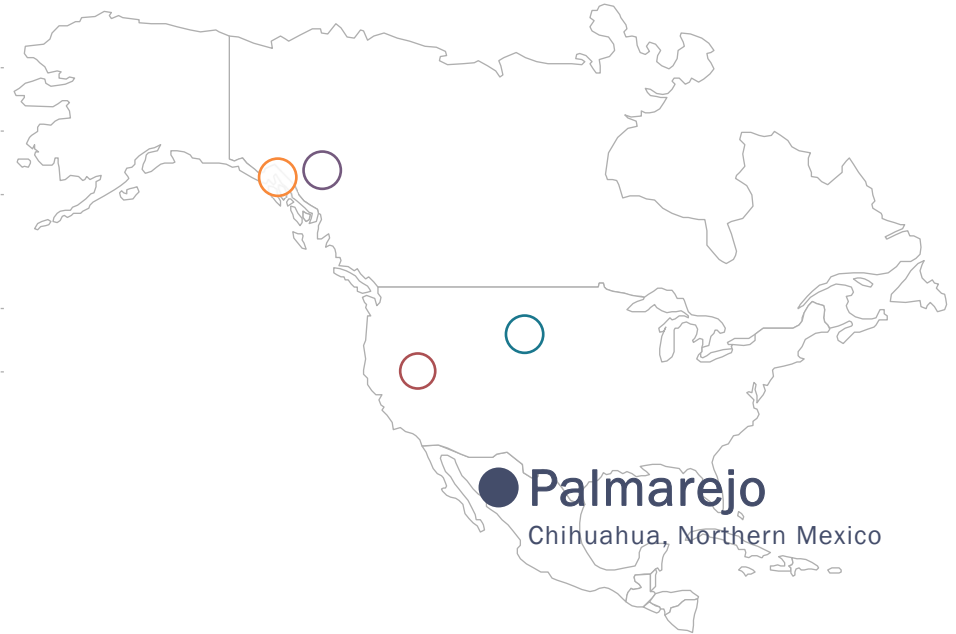

- ✓ Eight out of nine Directors are independent (all except CEO); all four main committees comprised of independent directors only
- ✓ Two directors elected in February 2018 having skills and experiences that complement other directors
- ✓ Balance of newer and longer serving directors; no mandatory retirement age
- ✓ Half of independent directors are diverse (gender or ethnicity), contributing to a variety of viewpoints

Notes to 2020 mineral reserves and resources:

- (1) Effective December 31, 2020.
- (2) Assumed metal prices for Mineral Reserves were \$17.00 per ounce of silver, \$1,400 per ounce of gold, \$1.15 per pound zinc, \$0.95 per pound lead.
- (3) Assumed metal prices for estimated Mineral Resources were \$20.00 per ounce of silver, \$1,600 per ounce of gold, \$1.30 per pound zinc, \$1.00 per pound lead, except Lincoln Hill and Wilco at \$1,350 per ounce gold and \$22.00 per ounce silver, and La Preciosa at \$1,500 per ounce gold and \$20.00 per ounce silver.
- (4) Mineral Resources are in addition to Mineral Reserves and do not have demonstrated economic viability. Inferred Mineral Resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of Mineral Reserves, and there is no certainty that the Inferred Mineral Resources will be realized. The preliminary economic assessment for the re-scoped mine plan at Kensington is preliminary in nature and includes Inferred Mineral Resources, and does not have as high a level of certainty as a plan that was based solely on proven and probable reserves and there is no certainty that the results from the preliminary economic assessment will be realized.
- (5) Rounding of tons and ounces, as required by reporting guidelines, may result in apparent differences between tons, grade, and contained metal content.
- (6) Excludes the impact of the gold stream agreement at Palmarejo.
- (7) For details on the estimation of mineral resources and reserves, including the key assumptions, parameters and methods used to estimate the Mineral Resources and Mineral Reserves, Canadian investors should refer to the NI 43-101 Technical Reports for Coeur's properties on file at www.sedar.com.

Notes to 2019 mineral reserves and resources:

- (1) Effective December 31, 2019.
- (2) Assumed metal prices for Mineral Reserves were \$17.00 per ounce of silver, \$1,350 per ounce of gold, \$1.15 per pound zinc, \$0.95 per pound lead.
- (3) Assumed metal prices for estimated Mineral Resources were \$20.00 per ounce of silver, \$1,500 per ounce of gold, \$1.30 per pound zinc, \$1.05 per pound lead, except Lincoln Hill and Wilco at \$1,350 per ounce gold and \$22.00 per ounce silver, and Sterling at \$1,200 per ounce of gold.
- (4) Mineral Resources are in addition to Mineral Reserves and do not have demonstrated economic viability. Inferred Mineral Resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of Mineral Reserves, and there is no certainty that the Inferred Mineral Resources will be realized. The preliminary economic assessment for the re-scoped mine plan at Kensington is preliminary in nature and includes Inferred Mineral Resources, and does not have as high a level of certainty as a plan that was based solely on proven and probable reserves and there is no certainty that the results from the preliminary economic assessment will be realized.
- (5) Rounding of tons and ounces, as required by reporting guidelines, may result in apparent differences between tons, grade, and contained metal content.
- (6) Excludes the impact of the gold stream agreement at Palmarejo.
- (7) For details on the estimation of mineral resources and reserves, including the key assumptions, parameters and methods used to estimate the Mineral Resources and Mineral Reserves, Canadian investors should refer to the NI 43-101 Technical Reports for Coeur's properties on file at www.sedar.com.
